

95.5

1) Find the distance:

Speed = 40 km/h and time = 2 hour 45 mins

2) Factorise  $x^2 - 6x + 8$

3) Expand and simplify  $(x + 5)(x^2 - 3)$

4) Express 0.0007 in standard form

5) Find the gradient of the line  $3y = 6x - 5$
