

95.3

1) Find the distance:

Speed = 48 km/h and time = 2 hour 15 mins

2) Factorise $x^2 + 3x - 4$

3) Expand and simplify $(x^2 - 2)(x - 5)$

4) Express 20190 in standard form

5) Find the gradient of the line $2y = 6x - 2$
